

Urgent Investigative Support Request - The Gelle Fra Case

From	Luxembourg Police Liaison Office <liaison.office@secure-mail.lu>
To	External Investigative Review Team
Date	20 June, 18:12
Subject	Urgent Investigative Support Request - The Gelle Fra Case

Message

A restricted evidence package has been prepared following the death of Grand Duke Emeric IV of Luxembourg-Vallee after the National Day fireworks. Your team is asked to review the available material independently and reconstruct the sequence of events.

A temporary Armundia badge appears in the access trail. At this stage, that fact must be treated as an investigative lead, not as a conclusion.

Your deliverables are: identify the culprit, the motive, the method, the decisive evidence, the false lead that should be discarded, and the timeline that supports your accusation.

Access to this dossier is limited to the review session. No single document should be treated as decisive without cross-checking timing, location and source reliability.
