

Internal Access Administration Memo

INTERNAL - CONFIDENTIAL

Temporary Access Badge Note

Prepared by	Access Coordination Desk
Supplier	LuxEvent Secure
Responsible desk	Operations

Temporary badges for the retreat and related logistics were issued and tracked by Operations. LuxEvent Secure provided the badge holders and access kits.

Badge #0017 was issued to D. Rinaldi. It was reported lost on 21 June and was not immediately deactivated. A badge matching the same number was later held among spare/recovered items at the Operations desk.

Standard rule: any recovered badge must be stored securely and deactivated immediately. The deactivation record for #0017 is incomplete.
