

Event-Kit Inventory / Scene Correlation

INVENTORY NOTE

Missing Technical Flashlight - Inventory Note

Supplier kit	LuxEvent Secure event access kit
Item	Heavy metal technical flashlight
Status	Signed out; not returned

The injury pattern is consistent with a heavy metal technical flashlight used by event staff. No weapon was recovered at the scene.

LuxEvent Secure inventory shows one heavy technical flashlight signed out for the National Day route setup and not returned after the event.

The item could have been removed inside a supplier equipment container through ordinary logistics movement.
